

# Document input template

## Supporting information

DOI: 10.1021/jacs.2c09756

Replace this file with the corresponding real PDF before extraction.  
Keep the same filename and folder location.

This template contains no published article text or research data.  
The DOI specifies a filename example from the literature inventory.

For another paper, update inventory.csv and use its DOI for both  
filenames. Replace the DOI slash with an underscore, and append  
\_SI to the supporting-information filename.
